Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the mid-month of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - August 1977

Payments made out of Title XIX funds in August totalled $1.482 billion, an increase of $132 million from July. Average monthly payments for the twelve month period ending in August equalled $1.389 billion, an increase of 1.0 percent over the twelve month period ending in July.

Approximately 9.3 million recipients 1/ had vendor payments totalling $1.445 billion made in their behalf.

There were concurrently 237,794 Medicaid eligibles enrolled in health maintenance organizations whose premiums totalling $8.9 million were paid out of Title XIX funds.

Persons Served

The percentage distribution of persons for whom medical payments were made by basis of eligibility and money payment status for August is as follows:

Basis of eligibility	Total	Money Payment Status: Money payment authorized	Money Payment Status: Money payment not authorized
		Percent	
Total	100.0	77.5	22.5
Aged 65 and over	23.2	14.7	8.5
Blindness	0.5	0.4	0.1
Permanently and Totally disabled	15.8	12.6	3.2
Children under 21 in families	32.8	29.9	2.9
Adults in families with dependent children	21.7	19.7	2.0
Other Title XIX under 21	3.3	---	3.3
Other Title XIX age 21-64	2.6	---	2.6

1/ Recipient estimates for Georgia and Wisconsin were based on average payments per recipient submitted for subsequent months. Pennsylvania recipient count was inflated to reflect prescribed drugs.

More than half (54.5 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 36.1 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 23.2 percent of the caseload. Recipients who also received money payments outnumbered nonmoney payment recipients by more than 3 to 1. Among members of families with dependent children under 21, nine out of ten Medicaid recipients also received AFDC money payments.

Medical Payments by Groups of Persons Served

As shown below, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (25.7 percent) are made on behalf of recipients aged 65 and older who are not also recipients of maintenance assistance. Such recipients only represent 8.5 percent of the caseload. Payments for these recipients, to a large extent, are made to medical in-patient facilities which represent the more expensive types of medical services. Only 17.2 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. The second largest proportion of payments (28.0 percent) are made on behalf of the permanently and totally disabled.

Basis of eligibility	Total	Money Payment Status: Money payment authorized	Money Payment Status: Money payment not authorized
		Percent	
Total	100.0	54.6	45.4
Aged 65 and over	36.7	11.0	25.7
Blindness	0.6	0.4	0.2
Permanently and totally disabled	28.0	17.7	10.3
Children under 21 in families	14.5	12.2	2.3
Adults in families with dependent children	15.1	13.0	2.1
Other Title XIX under 21	2.7	---	2.7
Other Title XIX age 21-64	2.4	---	2.4

Payments by Type of Service

Inpatient services comprised 70.7 percent of medical vendor payments in August: hospitals (29.9 percent), skilled nursing facilities (18.0 percent), intermediate care facilities (22.8 percent). Physicians' services, prescribed drugs and outpatient hospital services accounted for 9.6, 6.3, and 4.9 percent respectively, of the total payments.

Screening Services

During August 175,895 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About fifty-one percent of the children screened were six years of age or older. Fifty-three percent of the children screened had referrable conditions uncovered and ninety-one percent with such conditions uncovered were referred for diagnosis and treatment.

Medical Assistance Financed Through State (General Assistance) Programs

During the month of August 1977, twenty-one States reported a total of $80,014,337 in payments for medical assistance which were not subject to Federal financial participation.

Alaska	$147,688	Maine	$17,111	North Carolina	$101,856
California	41,415,266	Maryland 1/	4,802,442	North Dakota	1,139
Connecticut	516,087	Massachusetts	356,672	Oregon	719,289
Colorado	1,229	Michigan	128,456	Rhode Island	356,246
Hawaii 1/	1,111,125	Minnesota	2,139,565	South Dakota	82,665
Illinois	6,448,118	Montana	352,955	Utah 1/	691
Louisiana	56,533	New York 1/	21,239,463	West Virginia	19,741

1/ States are asked to report medical payments made from general assistance funds separately from Title XIX. Thus, the data are excluded from the detailed tabulations. However, New York reports combined data and Hawaii, Maryland and Utah included the information in the Title XIX statistics prior to July 1977.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:

   -- indicates no data reported.
   Z indicates that the percent was less than 0.05.

2. Arizona has no Title XIX program and is excluded from the tabulations.

3. Oklahoma discontinued its agency pooled fund beginning July 1976.

4. All data for Tennessee were estimated by the State.

5. Georgia did not report recipients or payments by maintenance assistance status and basis of eligibility of recipient and is excluded from all applicable tables. Wisconsin reported payments by maintenance assistance status and basis of eligibility of recipient only. Colorado reported recipients and payments by basis of eligibility only.

6. States do not always report premium or per capita payments into the SSA system for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting SSA and HMO premium payments because in some cases, such payments may be made less frequently than monthly (Table 1).

7. Pennsylvania recipients for prescribed drugs are not included in the tabulations. New Hampshire payments for medical transportation and Colorado payments for dental service are reflected in Tables 1 and 5 only.

8. Data for Idaho in Tables 2-14 include children screened under the EPSDT program and payments for such services.

9. In addition to Colorado, Georgia, and Wisconsin; Massachusetts, Nevada and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Colorado and Pennsylvania did not differentiate other Title XIX recipients by age and are excluded from Table 14.

10. In some States, two or more types of medical services may be grouped together under one class, such as Connecticut where other practitioners', clinic, laboratory and radiological, home health, and family planning services are included in other care, and South Carolina, where skilled nursing facility services include payments to State mental institutions.

11. For some States, difference in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4, and 6-9. For the current month, however, expenditures for Michigan exclude accounting adjustments of (+54,438).

ANNOTATIONS SPECIFIC FOR SCREENING TABLES 15-20

12. States omitted from tables either did not report on screening services for August 1977 or there were no individuals screened during the month.

13. California reported 133,665 individuals receiving comprehensive physical examinations in addition to the screening data.

14. Maryland reported 102 individuals screened in HMO's, but such cases were not distributed by age.

15. Included in the totals for Minnesota are 115 individuals screened at C and Y projects and for Rhode Island are 571 individuals including 119 new borns for whom there is no detailed information.

16. Indiana reported incompletely with respect to referral status of children screened.

17. Idaho, Illinois, North Carolina, Ohio, Vermont, Virginia, Washington and the Virgin Islands reported incompletely with respect to problems uncovered during screening.

18. Texas data do not include 6,774 dental screenings which are performed separately.

19. Payments for screening services were not reported by Massachusetts, Michigan, and Puerto Rico and payments for Idaho, New York, Pennsylvania, Texas and the Virgin Islands were not reported separately by age.
